SEWER JOB STARTS DEC. 1

COUNTY FAIR PLANS RUSHING TOWARD COMPLETION

HOTEL BALCONY COMING DOWN

Manager L. A. Raffetto Has Installed New Automatic Electric Furnace

The balcony at Hotel Raffles is coming down.

Manager L. A. Raffetto made this explanation Tuesday morning when passersby inquired as to the reason for making preparations to set up a supporting pillar in the lobby of the hotel.

"I've wanted to get that balcony down for some time," Mr. Raffetto explained, "and engineers have recommended strengthening of the building by putting a supporting pillar in the lobby, so we're getting the job under way."

Mr. Raffetto also directed callers to the new General Electric automatic furnace, installed recently at the hotel. It is controlled by a thermostat in the hotel lobby, with a time clock hook-up so that the furnace may be set to begin operation at any predetermined time.

"This," he said, "is another of the improvements we had been looking forward to for some time."

Folsom Staff Boosts Ryan

157 Guards And Officers Of Penitentiary Recommend Appointment As Warden

FOLSOM PRISON, (AP)—G. R. Stevenson, acting Folsom Prison Guard Lieutenant, said today a petition bearing signatures of at least 157 guards and officers of the penitentiary will be submitted to the State Prison Board Saturday, urging Guard Captain Wm. J. Ryan's elevation to warden.

The board is scheduled to appoint a successor to Warden Clarence A. Larkin, fatally wounded in the Sept. 19 prison rioting, at that time.

All but five of the 162 officers and guards have signed the petition Stevenson said.

Ryan, injured critically in the rioting, returned to his post yesterday for the first time since the outbreak.

Ranger Berriman's Car Found In Portola

Ranger R. C. M. Berriman, of Georgetown Ranger Station, has recovered his car, stolen about two weeks ago while the ranger was visiting in Grass Valley.

Trace of the machine was found when the thief drove into a filling station at Hazen, Nevada, and persuaded the station operator to "fill 'er up" and "send me the bill."

Berriman got the bill, and with this as a clue the car was traced to Portola, where it was found abandoned on the street.

Street Improvement At Fruit House Complete

The City Council wrote "finis" to the matter of realigning Union Street at the P. F. G. A. fruit shed on Monday night. The work was done in a co-operative agreement between the association, the city and the railroad company at the time the new storage and pre-cooling plant was erected and the necessary details on the city's part were wound up Monday night.

The city council is considering a proposal to purchase white raincoats and caps for the Placerville Grammar School junior traffic patrol, at a cost of about \$4 each. Councilmen indicated they may invite the co-operation of the grammar school trustees in the project, the coats and hats to remain the property of the grammar school.

IMPERILED—Mrs. C. H. Sprague, formerly of Boston, wife of a Cleveland oil executive in Shanghai, who was one of the five Americans and 15 foreigners imperiled when a Japanese plane swooped down five times belching machine-gun bullets. They were horseback riding and escaped unhurt, though a Royal Ulster rifleman was killed.

GROWERS FAVOR AAA CHANGE

Improvement In Marketing Regulations Advocated In Survey Of Fruit Shippers

SAN FRANCISCO, (AP)—California growers of Bartlett pears, plums, Elberta peaches and fall and winter pears have advocated further improvement in marketing regulations in a survey conducted by the agricultural adjustment administration Pacific region marketing committee, E. L. Markell, chairman, revealed today.

Growers who ship to eastern markets for fresh consumption were asked by the committee to suggest new changes in present marketing regulations or to advise the committee if they were satisfied with the present program.

Markell pointed out the committee "does not desire to continue even temporarily any program which is not regarded by a large majority of the growers involved as thoroughly beneficial."

July 4th "Fun" Damages Druid Monument

According to city officers, children had "great fun" last Fourth of July, when they placed lighted firecrackers in the plumbing fixtures of the Druid monument to Fredrick Sleg, at Main and Cedar Ravine Street, and watched them explode with loud report.

But the explosions damaged the fixtures and now it will cost approximately \$50 to replace them.

H. E. Dillinger, representing California Grove No. 1, Druids, was before the city council Monday night on the matter, and the council decided it will seek to co-operate with the members of California Grove in repairing the damage.

Mr. and Mrs. Paul Williams are home following a week's vacation at San Francisco.

DAIRY DISPLAY SCHEDULED

Horse Show, Stock Exhibit Promise Large Number Of Exhibitors

Preparations for the El Dorado County Fair, scheduled to open Friday morning at Marcus P. Bennett, Jr., Memorial Park, are swinging into the final stretch and the fair grounds Tuesday morning was a hive of activity as carpenters and other workmen rushed the building of various booths to completion.

L. J. Anderson, secretary manager, said the first of the booths probably will be set up Wednesday.

At the same time L. A. Raffetto, chairman for the dairy show, announced there will be approximately \$200 in prizes in this event. Premium classes are for farm made cheese of all types, market milk in two grades, pasteurized and raw. The milk contest is without regard to state standardized grades.

Ice cream premium classes are for vanilla, caterer's ice cream and sherbert. It is a condition of entry that all products must be produced or processed in the county.

Cheese should be presented without identifying marks other than the name of the maker. Milk should be entered in two pint bottles, without identifying marks, and cream should be entered in two pint bottles without identifying marks. Ice cream should be entered in three-gallon cans.

Entries may be made at any time and all entries must be in by Friday noon.

F. Norman Cello, livestock chairman, reported that plans for the horse show, which will have Tevis Paine as master of ceremonies, are being concluded by Euell Y. Gray. Gray has received entries for 125 horses in the big show, which will be held Saturday.

The livestock show, on Saturday, will present a varied array of county stock including 90 cattle, 85 sheep, 40 hogs, 7 goats and 14 mules, Mr. Cello said.

Will Watkins, of Placerville, is preparing an elaborate honey display.

Dr. Anderson announced plans for the baby show, in which great interest is being shown, are nearing completion.

Fathers' Night For P. T. A.

School Principal From Sacramento Will Be Speaker On Wednesday

Annual Fathers' Night meeting of the Placerville Parent-Teacher Association will be held Wednesday evening at 7:30 o'clock at the Federated Church.

Although meetings of the association are ordinarily held during afternoons, this special meeting is planned for the evening in the hope that as many of the parents, especially fathers, of school children who can possibly arrange to do so will attend.

The speaker of the evening will be William Burkhead, a principal in the Sacramento Public School system, who will discuss "Peace in the Home."

An appropriate entertainment program is being arranged and following the meeting the association and guests will adjourn to the church parlors for refreshments.

Councilman M. E. Raber reported to the council Monday night that the street lights as approved by the council at its October meeting had been ordered installed, but that installation had not yet been made. Raber was requested to look into the advisability of placing a street light on Coloma Street near the junction of Hillcrest Avenue.

RECORD—Jean Batten, 26-year-old New Zealand aviatrix, who set a new solo flight record from Australia to England. Her time was 5 days 18 hours and 15 minutes after she took off from Darwin, Australia, to the air field at LeMone, Kent, England, by fighting bad weather for two days on her flight, her legs were so cramped on arrival that she had to be carried from her plane. Later, continuing to Croydon airport, she was greeted by thousands.

LEGISLATURE CALL URGED

Special Session To Buy Bay Ferry System Being Considered By Merriam

SACRAMENTO, (AP)—The state legislature may be called into special session to save \$16,000,000 in San Francisco-Oakland Bay Bridge bond refinancing, it was indicated today.

Earl Lee Kelly, state director of public works, said legislative approval of a state monopoly of San Francisco Bay traffic facilities—specifically purchase of the bay ferry systems—would permit refinancing of bridge bonds at 3½ per cent interest rates. The current 4 per cent rate, allowed during the "construction period," is scheduled to increase to 4 3/4 per cent next year.

Kelly said the difference in interest rates over a 30-year period would amount to \$16,000,000.

Gov. Frank F. Merriam, Finance Director Arlin E. Stockburger and Kelly, all members of the California Toll Bridge Authority, are scheduled to discuss refinancing plans with representatives of the Reconstruction Finance Corporation next week. The Governor may make a definite decision on the proposed special session at that time.

PARKING LOT FOR 100 CARS OFFERED AT \$10 RENTAL

The Southern Pacific Company has offered the city the use of its property in the rear of the city hall, the Court Garage and the I. O. O. F. hall as an auto parking lot at a rental fee of \$10 annually.

The City Council received the communication formally at its meeting on Monday night and held up definite action on the plan pending a settlement of rights of way for proposed driveways and foot-paths to the area.

Councilmen said that the area will afford parking space for 100 cars and that the offer is a step toward the conclusion of a program which has been under way for several months. They expect to accept the offer, conditioned upon the perfection of the rights of way in question, and may bridge Hangtown Creek approximately at the rear of the courthouse for entry to the parking area. The necessary lights to make the area practical for night use would also be installed.

BIDS ON \$50,000 BONDS CALLED FOR NOV. 15

First Unit Of Project Will Be For Laying Of 4,400 Feet Of Pipe From Washington Street East; Contract On Second Unit May Be Awarded About January 1, Engineer States

The contract for the first unit of Placerville's new sewer improvement project will be awarded about December 1 and bids on the city's \$50,000 bond issue which, combined with a PWA grant makes undertaking the improvement possible, will be opened by the council on the evening of November 15, at 8 o'clock.

These are the high-lights of Monday night's meeting of the city council, held at the city hall, with Harry N. Jenks, consulting engineer on the sewer project, in attendance.

"Short Cut" Is Worry To Business Men

Councilman M. E. Raber and Philip Frost probably take their discounts wherever possible as business men, but there's one "short cut" which has their heads in a whirl.

It's the thoroughfare between Main Street and the railroad track, and between their two places of business, the Arcade Bakery and the Court Garage.

"What we want to know is who is liable if someone gets hurt walking through there?" they told City Attorney Thomas Maul Monday night.

Maul replied just as most other attorneys might have, that he'd "have to look it up."

"And why can't we just put a fence across it and close it up?" one of the councilmen asked.

"You can't do that because the public has acquired a right to go through there," answered Maul.

"Well, who's going to fix the steps? They are in bad shape and someone is likely to get hurt."

"I don't know," advised the attorney.

The two councilmen suggested it was "a fine kettle of fish" that they might be held responsible for injury to someone who was hurt while walking through a thoroughfare that they couldn't close.

Councilman Pierson will cast his eagle eye over the project and make recommendations.

\$200 Fine For Hit-Runner

Defendant Must Repair Damage Done in Crash On Monday

J. Bresaw, of Pacific, was bound over to the Superior Court Monday morning at a preliminary hearing before Justice of the Peace T. F. Lewis, and on Monday afternoon pleaded guilty before Judge George H. Thompson to hit and run charges.

Waiving time for passing sentence, Bresaw was immediately ordered to pay a fine of \$200 or serve 100 days in jail, and to repair the damage done when his car struck a car driven by Mrs. Annie Wilkinson at Bullion Bend last Thursday evening.

The evidence showed that after Bresaw's car struck Mrs. Wilkinson's car, in which Miss Jennie Blair and her mother also were passengers, Bresaw failed to stop but instead continued to Pacific House where he was later taken into custody by State Traffic Patrolman Harold B. Fowler.

It was reported Bresaw had been drinking. He was in jail Tuesday morning.

Anderson Rites To Be Wednesday Morning

The funeral services for William Somers Anderson, 83, who died Sunday at Lotus, will be held Wednesday morning at 11 o'clock at the Gornley mortuary chapel, 2015 M St., in Sacramento. The rites will be followed by cremation at East Lawn.

WEATHER

Fair tonight and Wednesday; no temperature change; high today, 70; low last night, 37.

Labor Facing Ballot Test

Factional Strife Crystallizes In Elections In 15 States In "Off Year" Voting

By UNITED PRESS

Significant off-year elections present a test today of organized labor's strength as an independent force at the polls.

The committee for industrial organization and American Federation of Labor were vigorous opponents in Detroit, but fought side by side in Akron and Canton.

The American labor party, C. I. O. dominated, hoped to poll 750,000 votes for the re-election of Mayor F. H. La Guardia in New York City, where the future of Tammany Hall was at stake.

New Jersey and Virginia elect governors. Five congressional seats are being filled—three in New York state, one in Massachusetts and one in Virginia.

Postmaster General James A. Farley entered the New York City campaign to plead for support for La Guardia's Tammany-New Deal democratic opponent, Jeremiah T. Mahoney.

There are elections of various kinds in 15 states. Philadelphia, Cleveland and Pittsburgh were among the large cities electing mayors.

Tax Assessments Draw Protest To City

Two protests against increased valuation of their property for tax purposes were made to the City Council on Monday evening.

J. W. Lee was present to protest against an increase on his property. Mr. Lee was advised by City Attorney Thomas Maul that he should present his protest in affidavit form, following which the council could act upon it.

The Council also had a letter from Mrs. C. W. Littlefield, of Oakland, protesting against an increase in appraisal of the Empire Theater building which raised her taxes on the property by \$83.

This & That

By The Tattle-tale

Those of you who heard the program "We The People" over the radio the other night were perhaps as amazed as we were at the credulity of some people. One person we noted in particular—a chap who took two dimes from his mother thirty years ago and now would like to have them back as they were a treasured keepsake! The coins had the initials "E.H." scratched on them and were once the property of his brother who died—now he is advertising for the return of those coins in the hope of finding them. If those dimes still have the initials on them after thirty years use we should like to see them—the way we squeeze a dime makes us wonder how anything can be left on them.

Are you a "light dipper?" We made a small investigation the other night while driving and kept a count on the number of drivers who dipped their lights and those that didn't. Out of eighty-two cars met, twenty-nine dipped their lights and fifty-three did not. Approaching cars as a rule do not dip their lights unless yours are too bright for comfort, yet nearly two thirds of those we dipped to first did not respond. It is a simple matter of courtesy—as well as a necessity in many cases. Dip your lights next time!

That quantity called X—
 X is the mark of illiterate men
 X is the Roman notation for ten
 X is a ruler removed from his throne
 X is a quantity wholly unknown.
 X may mean Xerxes, a furious gas.
 X is a ray of similar class.
 Xmas is Christmas, a season of bliss,
 X in a letter is good for a kiss.
 X is for Xerxes, the monarch renowned.
 X marks the spot where the body was found. —El Lobo

Here is a subject we have been turn-

FLINT DART FOUND IN MONTANA DATES TO 4TH ICE AGE

ROUNDUP, Mont., (AP)—A flint dart and a dart-making tool, believed to be from 100,000 to 200,000 years old, have been discovered near here by Earl McConnell, a rancher.

The prehistoric tools, which scientists said apparently dated from the fourth glacial period, were perfectly shaped. Both were of grey flint. The dart is similar to an Indian arrowhead except that it is heavier in the center.

Curved to a point on one cutting side, the dart-making tool was about 4 inches long by 2 inches wide. The discovery was made in the bed of an old lake about three miles south of Musselshell, 23 miles east of here.

Yellow License Plates For 1936

The California license plates for 1936 will be chrome yellow instead of orange, with black numerals and alphabetical letters, reports the license department of the National Automobile Club. The small double alphabetical letters appearing on late issues of 1937 plates will not be used in the 1938 series. For many years, California has had orange-black license plates.

Fred Wells has returned to duty at the Safeway market following a week's vacation.

Sewer Job To Start Dec. 1

(Continued from page 1)
may be started by December 10. It is very essential that the work be under way on this date since it is a condition of the PWA grant that work be started within ten weeks from the date of making the grant and Dec. 10 is the last day.

The council authorized publication in the city's official newspaper, The Mountain Democrat, of a notice of sale of the \$50,000 bond issue at 8 p. m. on November 15.

There will be sixty bonds, forty of them in \$1,000 denomination and twenty of them in \$500 denomination drawing interest at the rate of three and one-half per cent, payable semi-annually.

Thirty thousand dollars worth of the bonds will begin to mature on December 1, 1938, and will mature at the rate of \$1,500 per year until December 1, 1957.

Twenty thousand dollars worth of the bonds will begin to mature on December 1, 1958, and will mature at the rate of \$2,000 per year until December 1, 1967.

Consulting Engineer Jenks and Clifton Wildman, resident engineer on the project, discussed the improvement in general with the Council and gave assurance that the preliminary work is going ahead on schedule.

Mr. Jenks stated to the Council that the contract for the first unit of the project may be awarded about December 1.

BIGGER SHIPS REQUIRE LARGER AIRPORTS OVER NATION

By G. W. STEWART, JR.
United Press Staff Correspondent
WASHINGTON, (U)—Several key cities on transcontinental air routes face the possibility of curtailed air service next spring when airlines plan to place new 40-passenger lanes in service, the Bureau of Air Commerce officials have reported.

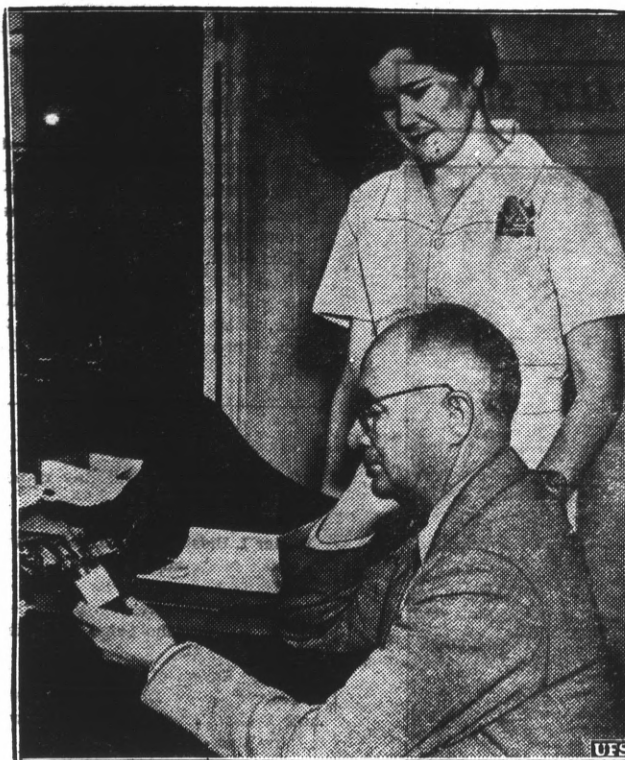

Bureau experts who have been studying landing areas and take-off runways for the new planes said that Washington, Chicago, Kansas City, Los Angeles, Denver and probably several others will either have to engage their existing airport facilities or operate on a restricted basis.

Fred B. Fagg, director of the bureau said: "If we believe what the army and navy tell us, the new planes will require longer runways to take off and greater areas in which to land."

Several cities were expected to enlarge their airports. Bureau officials said that San Francisco's present airport development program will meet the necessary requirements. The Newark, N. J., air terminal, serving New York City, probably will be adequate for the new planes, they said.

DOGS PLAY CRICKET

SYDNEY, (U)—Cricket matches with 10 Alsatian dogs in the field are played regularly here. The dogs, which have been trained by two constables, rarely miss a catch or fail to stop a ball. Three of the dogs are excellent wicket-keepers.

THIRTEENTH PATIENT — Dr. A. S. Calhoun of Mount Olive, Miss., with Nurse Evelyn Sharbrough, 13th of the patients to whom he unwittingly administered a deadly brand of elixir of sulfanilamide as an infection cure. Although later she knew the medicine might be fatal, she continued her work, as above. Government agents raced with death to recall 700 bottles.

Racing Dog Champion Of Blood Donors

ATLANTA, (U)—Rip, a speedy greyhound owned by Dr. C. E. Bild of Miami, Fla., has retired from racing after saving the lives of many of his canine friends by submitting to 102 blood transfusions.

Rip was retired by the Southern States Veterinarian Association. Most of the transfusions taken from Rip have been used to save the lives of dogs hurt in auto wrecks.

Doctors say Rip is an ideal donor—"never a whimper."

CARROT-SPINACH DIET WELCOMED BY 12-YEAR-OLD

PHILADELPHIA, (U)—Medical men said it was unusual and experienced mothers accepted it as a phenomenon when 12-year-old Morton Mandell said he preferred string beans, carrots and spinach to ice cream, cake and candy.

Morton's preferences are fortunate, because he faces a full year of vegetables, beef broth and dry cereals in order to reduce his weight and pressure on his heart.

The boy weighed 172 pounds when he entered Children's Heart Hospital in June, is down to 146 pounds now but must touch 115—normal for his age and height—before he can abandon his diet.

"The fellows used to make fun of me because I waddled," Morton said. "But they've stopped laughing now, and I feel plenty better. Give me some more spinach, string beans and carrots."

W. A. Caldwell was in town Saturday from Camino.

15-TON MARINE LIZARD FOSSIL FOUND IN DAKOTA HILLS

CAVALIER, N. D., (U)—The fossil of a prehistoric sea lizard, a marine reptile believed to have lived more than 200,000,000 years ago, has been unearthed in the Pembina mountains just west of here.

The discovery was made by G. A. Schroter, Los Angeles geologist, and a crew in his employ.

The giant lizard was found buried in a fine silt, 75 feet beneath the surface of what Schroter believes was at one time a tidal lagoon. Fossilized ferns and rushes found with the skeleton indicate that the climate then was tropical and moist in that section of the United States now classified as sub-Arctic.

The rock formation in which the skeleton was imbedded is known as the Pierre division of the cretaceous.

The Pitre sea, in which the lizard (technically known as Mosasaurus) lived at one time, covered much of central North America, Schroter said. It included large areas of the Dakotas, Nebraska, Iowa, Oklahoma, Texas and the prairie provinces of Canada. Similar specimens have been found in several sections of that area.

The sea lizards such as the one unearthed here, are believed to have weighed 15 tons. Their brain, by contrast, weighed three ounces.

"BULLDOGS" ANTELOPE

GREYBULL, Wyo. (U)—James Emmett of Greybull, attacked by an antelope he had wounded, used rodeo technique to "bulldog" the antelope much as a cowboy does a steer. He subdued the animal, killed it and brought the head home as a trophy.

Student Reverses Rule, Lectures Professors

AUSTIN, Tex., (U)—Joe Hill, Jr., University of Texas student from Canyon, Tex., is giving lectures for the benefit of his college professors.

Hill, son of president and Mrs. J. A. Hill of West Texas State College at Canyon, recently appeared before the faculty science department of a nearby college, giving an illustrated lecture on his experiences in Little America during the second Byrd Antarctic expedition.

Knock-Kneed? Then Try A Rocking Horse

MINNEAPOLIS, Minn., (U)—The most effective remedy for a knock-kneed child of the pre-school age is a rocking horse, advises Prof. M. Lange, Munich, Germany, who gives his theories in Modern Medicine, a publication issued here.

Lange believes that knock-knees in children should be corrected by the simple and appropriate orthopedic treatment, abandoning use of splints and operation.

MOSCOW, (U)—This year 14,253,000 tons of raw peat have been obtained in the Soviet—1,200,000 tons more than in 1936.

SHED A TEAR FOR GARLIC GROWERS; WAR RUINS MARKET

SACRAMENTO, (U)—California garlic is in the weakest position in years, but the paradox is so strong it virtually has growers in tears.

Officials of the federal-state crop reporting service explained the unusual situation today.

California, they said, is the nation's leading producer of commercial garlic, most of which is grown in the San Benito-Monterey county area around Hollister.

Thus, when the Spanish war broke out, it was expected by many that the competition would fall off. This, however, was an erroneous assumption and the price of garlic, which costs approximately three cents a pound to produce, has fallen away to a cent and a half. Growers should get at least four, it was explained.

STRIKER UP TREE

SYDNEY, N. S. W., (U)—Threatening to shoot anyone who approached him, a "stay-up" striker, armed with a shotgun, defied for 24 hours all attempts to dislodge him from a 110-foot forestry observation tower near Mornington, Western Australia.

Huskers To Vie On Thursday

18 Men From 9 States To Seek National Honors At Marshall, Missouri

MARSHALL, Mo., (U)—The national corn husking championship, that rural extravaganza that in 10 years has spread from the "back forty" to the front pages will be held here Thursday (Nov. 4) on the Weber Brothers' farm.

President Roosevelt is scheduled to touch a button that will set off the starting bomb here. There will be 18 of the best huskers in the field, the champion and runner-up from nine corn states. J. C. Patterson, secretary of the Chamber of Commerce, expects 150,000 husking fans, and disinterested folk say there won't be fewer than 100,000.

The Weber brothers, George, Jake and Adolph, farm 800 acres and the husking arena is a 40-acre piece of rolling land where the corn averages 75 to 80 bushels to the acre. With such a stand to work on the huskers need only a break from the weatherman for a fair shot at the national mark of 2,906.96 pounds. Elmer Carlson of Audubon, Ia., set that record in 1935.

COLD WEATHER HINT - ELECTRIC HEAT

Quick, Sunny, Warmth-by-the-Hour for a Few Pennies

PORTABLE electric heaters are a necessity in California homes. Chilly mornings and evenings are typical of our California climate. Often a little heat for a little while is all that is needed. That is where the portable electric heater renders perfect service.

In thousands of California homes, in sewing room, nursery, nook or bathroom, electric heat solves the cold hands and cold feet problem of winter. Why not put one of these three electric heaters in your home this week? You'll be thankful a thousand times for the efficient, low-cost service of EXTRA QUICK HEAT your portable electric heater will give you this winter.

CAMINO FARM CENTER MEETS TONIGHT AT CLUBHOUSE

The regular meeting of the Camino Farm Center, continuing the November series of center meetings, will be held tonight at the Camino Clubhouse.

In addition to rounding up final plans for participation in the El Dorado County Fair, November 5, 6, and 7, the center will have a series of motion pictures and will hear a talk by Farm Advisor Ivan W. Lilley on the principles and practices of fertilizing.

Coloma center inaugurated the November series of meetings at Coloma Hall on Monday evening, the discussion of fair plans revealing a wide variety of entries in many departments.

Native Daughters Set Card Party Over

The regular card party of Marguerite Parlor No. 12, N. D. G. W., for the benefit of their homeless children's fund, which was to have been held on Wednesday evening, November 10, has been postponed until Tuesday evening, November 30. The re-arrangement was necessary to avoid a conflict with the date for the annual Senior play at the high school.

Forest Supervisor and Mrs. Edwin F. Smith were at Marysville Sunday to visit Mr. and Mrs. Thomas Haldermann. Mrs. Haldermann is the former Mary Barkley.

NEW YORK'S HAVEN FOR THE CHRONICALLY SICK

FOR CHRONIC DISEASES — Chronic diseases, according to Dr. S. S. Goldwater, Commissioner of New York City's Department of Hospitals, are growing at a rate which suggests America may some day become a nation of invalids. To cope with that situation, here is what a metropolis is doing. An outmoded, ill smelling, insanitary city prison, shown in lower panel, occupied part of New York City's Welfare Island in the East River. The prison was torn down and in its place is rising a 1,500-bed hospital

largest of its kind in the world, where with the cooperation of Columbia, Cornell and New York University medical colleges, extensive study will be made of such maladies as rheumatoid arthritis, cirrhosis of the liver, arteriosclerosis and other ills. A view of this unique hospital under construction, with buildings arranged in chevron pattern, so that at no time of day does one building cast a shadow on another, is shown in top panel. Modern design of buildings is indicated by the nurses' home, center panel.

EIGHT BROTHERS TRAVEL 174,960 MILES FOR EDUCATION

CLEVELAND (UP)—Thomas Sebian has returned to Cathedral Latin high school carrying on a "commuting tradition" started and held by the Sebian brothers of Painesville, Ohio, and after much addition and multiplication, he computed the distance the Sebian brothers had traveled to school at 174,960 miles.

George, who now is 28, and the oldest Sebian brother started the school-going tradition. After George, there followed four more Sebian brothers—Paul, 26; Aloysius, 21; William, 18, and now Thomas, 16.

The Sebian brothers commuted between their home in Painesville to Cathedral Latin—a distance of 27 miles—by train, "thumbing" and by offering through an advertisement, to "divvy up" the gasoline bill with a commuting motorist.

Francis Sebian, another brother who comes between Paul and Aloysius with an age of 23, was put out of the commuting when his leg was broken in seven places in a motorcycle accident.

Two more Sebian brothers, Richard, an eighth grader, and John, a fifth grader—expect to follow the others to Cathedral Latin in a few years.

Mary Ann, the family "baby," won't carry on the Sebian brothers' tradition. Cathedral Latin is a boys' school.

Each of his four brothers that preceded him to Cathedral Latin, made the 54-mile round trip on 180 school days each year for four years. He multiplied the school days by the mileage.

Jesse Miller was a visitor on Monday from Kelsey.

Firemen To Meet Sunday At Isleton

The regular meeting of the Northern California Firemen's Association will be held Sunday at Isleton, and according to local firemen there will be a number in attendance from Placerville and from Georgetown. It will be a day long meeting concluding with a banquet in the evening.

News Personals

Miss Luella Gerard of Oakland was here over the week-end visiting her sister and family, Mr. and Mrs. Lester Longhurst.

Mrs. Hazel Blair, Mrs. Edwin P. Smith and daughter, Barbara, and Mrs. Ruby Allen were among Tuesday visitors at the capital city.

We learn that Lake Valley experienced a generous shower over the week-end, which reduced the danger of forest fires in that district to a minimum—at least for the present.

Mr. and Mrs. B. E. Larson were at San Francisco Saturday night to attend "La Traviata," offering of the evening in the current opera season.

Lyman A. Bender was a county seat caller from Pleasant Valley on Monday.

Junior Forester Bert Parsons was in the Caldor district on Monday.

Elwin Maylone reported to city police Saturday evening that his car had been stolen from the rear of the courthouse, where he had parked it.

Dog Ears Worth More Than Whole Hound

The city police department, at the direction of the City Council, is enforcing a clean-up of unlicensed wayfaring dogs in the community and under plans outlined Monday night, the two ears of one dog will be worth \$1.50 to the man who presents them to the Chief of Police, while a whole hound will be worth but \$1.

News Personals

Gust Brown was a Tuesday morning caller from Camino.

Walter I. Bidstrup was a caller Tuesday from El Dorado.

C. C. Herbert, forest road superintendent, was at Echo Lakes Tuesday.

George Sayer of Placerville, and Earl Brown of Sacramento, were among those at San Francisco for the weekend and to see the auto show.

Mr. and Mrs. Arthur A. Records, of Long Beach, and Ralph Brubaker of Los Angeles, were here Sunday visiting Mr. and Mrs. J. G. Hearn.

The proposed subdivision, garbage and licensing ordinances of the city were laid over again on Monday night until the December meeting of the council.

Chief of Police James Morton was asked by the City Monday night to be especially vigilant in compelling all auto trawlers to comply with the state law, particularly as regards their sanitary features.

Al Musser, 20, arrested at the Saturday night dance at the I. O. O. F. hall by Sheriff Smith on charges of being drunk and disorderly, was fined \$50 when found guilty Monday before Justice of the Peace T. F. Lewis.

Mrs. Ana Hartson of Salt Lake City, who has been visiting with her daughter and family, Mr. and Mrs. Lester Longhurst, left Sunday for Oakland where she is to visit with a daughter there for a few days.

Mrs. Mance H. Vaught is a patient at University Hospital, San Francisco, for observation and diagnosis of an apparent rheumatic type pain. She was taken to San Francisco Monday evening by Mr. Vaught, who returned on Tuesday morning.

Homer P. Brown, of the Diamond Springs Lime Company, is preparing to leave in a day or so on a business and pleasure trip to Los Angeles and San Diego, and to be away for about two weeks.

PIONEER WOMAN DOCTOR LAID AT REST AT SAN DIEGO

SAN DIEGO, (UP)—Little more than 24 hours after she died Dr. Charlotte Baker, 82, one of California's pioneer women physicians was buried here yesterday.

Dr. Baker came to California in 1888 and established what grew to be a large practice. She was said to have been the first woman to serve as president of a county medical society in California, and was one of the state's outstanding civic leaders.

Dr. Baker was a native of Newburyport, Mass., and after graduating from Vassar obtained her medical degree from the University of Michigan.

Noted Author Stricken At Canadian Home

WINNIPEG, Man., (UP) — The Rev. Charles Gordon, known to millions as Ralph Connor, author of "The Sky Pilot," died here Sunday. He was 77.

One of the most eminent churchmen in Canada, Dr. Gordon was the author of numerous pre-war best sellers. During the World War he served in France as chaplain in the Cameron Highlanders.

NEVER ASKED WPA AID, BOAST OF TOWN IN KANSAS

REAMSVILLE, Kas., (UP)—This little Kansas town lacks a Chamber of Commerce but not community boasting points. Among these are:

No old maids or bachelors; never has asked a WPA grant; has not claimed to be important as a geographical center, has a bridge at both ends of main street; is the home of only one wind-propelled grist mill; has no ordinances regulating chickens, dogs, children or goats, and gets its water supply only from the clouds.

Cat "Turns Up Nose" At Canary Feast

FORT WORTH, Tex., (UP)—Cats seldom get an opportunity to enjoy a feast on canaries, but Hannibal is an exceptional cat.

Mrs. R. A. Patrick left open the door to a cage of 20 canaries when she went to answer the telephone. When she returned, Hannibal, the cat, was in the cage and 19 canaries were gone.

Mrs. Patrick rushed to the back porch for a broom, and found 19 canaries fluttering about. The remaining one was still in the cage, hopping up and down on Hannibal's back. And Hannibal was munching grass on the cage door.

Thomas Chard, of the high school faculty, who has been on leave for several weeks to permit of undergoing a major operation, returned to Placerville Monday and has taken up part-time teaching duties at the high school.
